

WATER AND SEWERAGE CORPORATION
Committed to Growth, Committed to Quality

WSC BRIEF TO BAHAMAS INFO SERVICES (MARCH-2018)

World Water Day was recently celebrated; which is held annually on 22 March, as a means of focusing attention on the importance of freshwater and advocating for the sustainable management of freshwater resources.

This year's theme, 'Nature for Water' explores nature based solutions to the water challenges, and is the theme that the Water & Sewerage Corporation has adopted as we prepare to observe National Water Month in May.

WSC - BAHAMAS ATTENDANCE AT 8TH WORLD WATER FORUM (March-2018)
