

## **WATER CORPORATION SUPPORTS PRIMARY SCHOOL STUDENTS FOUNDATION**

The Water and Sewerage Corporation and the Bahamas Primary School Students Foundation are once again doing it together, to make a difference, in the lives of the Country's primary school students in New Providence and the Family Islands.

The Corporation has been an annual donor to the Foundation, for the last five (5) years, and views this Foundation, and its recognition of our youth, through our Bahamas, as an integral part of our contribution into the lives of our young people, and our future.

We believe that the Corporation's annual contribution to the Foundation's premier annual national recognition ceremony, as was established in 1997, demonstrates the Corporation's commitment to the recognition of students both in the private and public school, from Long Island and Great Inagua in the south, to Bimini and Grand Bahamas in the North. We applaud the ***Bahamas Primary School Students Foundation*** for having recognized and awarded, in excess of 2,100 scholastic young students. We are most proud that we have this year, doubled our contribution of prior years, to these efforts.

The Chairman and the Board of Directors share in this Corporate initiative, and has endorsed the award to the Foundation, via our scholarship contribution - ***Chairman's sponsorships***.
